

PT SURYA MULTI INDOPACK

THE  
FLEXIBLE  
PACKAGING  
COMPANY

COMPANY PROFILE

## YOUR PARTNER IN PACKAGING SOLUTIONS

Started with a humble beginning, PT Surya Multi Indopack (SMI) was established in 1983 marked by the completion of SMI Rotogravure. Since then SMI has been expanding and adding new lines to be better equipped and accomodating market demands. With over three decades of experiences in this field, SMI manages two production plants, SMI Rotogravure in Rungkut Industri and SMI Flexography in Gedangan, delivers the finest products and excellent services to its clientele by building mutual partnership to supply their flexible packaging requirements.

# BEGINS

## THERE IS ALWAYS A PRELUDE IN EVERY STORY

SMI entered the flexible packaging industry in 1983 with one rotogravure production plant. We have been appointed as one of the prime players in the industry for more than three decades with countless experiences and recognition by multinational companies. We constantly develop our company with the latest technology to keep up with the growing market demand. SMI has been expanding more production plants with an addition of flexography plant in 2015.

Thanks to our esteemed business partners who trust us with their flexible packaging needs and drives us to innovate continuously.
